And What Have You

By BOB CRAIG

Sunday will be the big day for the ladies of the Woman's Forum as this will be the day for their Smorgasbord to raise money for the Harden Memorial Library. A large number of ladies have been working long and hard in effort to make this a successful project and we wish them the best of luck in this venture.

The biggest problem that they are facing is the lack of room to feed everyone. In an effort to overcome this problem they are selling tickets in half-hour segments, but even this may present some conflicts. If it turns out that there is some delay, we hope that everyone will understand that the ladies are doing everything possible to serve everyone as quickly as possible and are making every effort to eliminate any delay.

The ladies first planned to have the dinner at the Jaycee Community Building but the lack of kitchen facilities was too much of a handicap to overcome so they ended up in the high school cafeteria.

We hope this can become an annual project for the Library. With the new high school building next year, the feeding situation will be a whole lot easier, and the annual income that such a project would produce could give us a Library that we all could be very proud of.

Our first thoughts when we found out that the City Council was calling an election for a city sales tax was oh no, not another tax, and that a sales tax would hurt local business. But when we get to thinking about it we can see that the City is really hurting for money and since it becomes a choice between more property taxes and a sales tax we have to go along with the sales tax.

As for hurting business we doubt that a one percent tax will make that much difference since you have to spend \$100 before it cost you a dollar. It just would not make enough difference to justify going somewhere else.

The argument is always presented that the low income families are penalized by a sales tax but as long as the state exempts food from the taxable items we feel that this is not justified. We do not know many people that do not spend just about everything that they make regardless of their income and consequently the more they make the more they are taxed. This is probably the only tax that does not have loopholes in it that some segment of the population can beat being taxed.

As far as what the money is needed for, a long list could probably be drawn up by the city fathers. The high cost of living has hit the City just like everyone else. Their equipment is getting in bad shape, their employees are underpaid, and there are a number of projects that need to be undertaken that would benefit everyone. These projects include water and sewer improvements, street paving, airport improvement, park and recreation projects, and the list could go on and on.

We did not get the chance to congratulate the boys who were selected on the all-district team here last week and we wish to do so now. While we have always wondered about the fairness of all-district selections, we did feel that for the most part this was probably as good a list as we have seen with the selections being spread out in about the same order as we would rate the teams.

Anytime that you have to select the top 22 players out of a list of about 100 boys somebody that is deserving is bound to get left out. We are sure that in each town you will find people that feel that one or more of their boys should have made the team.

And we are no exception, because we felt that we had at least two more boys that should have made the team. We thought that Ernest Ledbetter was one of the best defensive boys we saw all year and as our second leading scorer we feel that Jimmy Hastings should have been selected somewhere. Maybe they need to come up with a spot for a kicker or specialist.

But all in all we were proud of the selections and are sure that the boys named feel honored.

GETTING IN PRACTICE — Mrs. James Eddie Jay fixes rolls for her family as practice, getting ready for the Smorgasbord to be held here Sunday. She gets the approval of her children, Debbie, right, Diane, and even two-year-old Curtis. Mrs. Jay is one of the several women who will be preparing home made bread for the dinner being sponsored by the Woman's Forum.

Tickets have been sold for 12 noon, 12:30, 1:00 and 1:30 serving periods. A check Wednesday showed that there were a number of the 1:30 tickets still available. Only the tickets that are not sold in advance will be sold at the door on a first come, first served basis.

Forum Smorgasbord Scheduled for Sunday

Plans for the Smorgasbord to be held here Sunday were finalized at a meeting held Tuesday at 5 p.m. in the high school cafeteria.

Serving will begin at noon in the Hamlin High School Cafeteria. Patrons are to enter the building at the main entrance in the center of the building and make their way down the north hall to be served in the cafeteria.

More than 100 women have

participated in the effort thus far. The project was launched by the Woman's Forum to pay for the remodeling costs at the Harden Memorial Library.

Advance ticket sales through Tuesday evening indicated that the 12 noon and 12:30 tickets were sold out and only 25 adult tickets were still available for 1 p.m. but there were plenty of the 1:30 tickets still to be sold. Mrs. Bob Craig said that these figures were

based on the fact that all tickets that had not been turned in to her by Tuesday evening had been sold. The unsold tickets and money were to have been turned in to Mrs. Craig at the Hamlin Herald by Monday afternoon.

A carry-out service will be used for those who cannot come to be served. A plate will be prepared in the kitchen for the carry-out orders. Those desiring carry-out plates should come to the back door of the kitchen at the cafeteria and present their ticket.

Mrs. E. D. Perrin announced the serving personnel and said that others who wish to help may contact her.

Miss Lennie Greenway said she would be assisted by Mrs. Marshall Bryant, A. A. Hackley, John Ed Day and Faye Atkinson on the hostess committee.

Mrs. Floyd Clifton, chairman of the food committee, said the lists of food to be prepared had been handed to each club president, who is to notify the respective club members. Each woman preparing food is to have copies of the recipe typed or written on recipe cards to be sold at the Smorgasbord.

Although all of the foods could not be mentioned she said the menu would include prime rib roast, ham, Swedish meat balls, several chicken casserole variations, fried chicken, congealed and other salads, tasty vegetables, home made breads, home made candy and a wide assortment of other desserts.

Mrs. Clifton also noted that fresh food would be placed on the serving table to assure the patrons a nice selection at each serving period.

Mrs. Gerald Young will be in charge of selling the recipes and Mrs. Murl Don Smith will see that the serving dishes are picked up at the cafeteria after the meal.

Mrs. Kenneth Riddle will be in charge of the clean up committee. She has not appointed members to this committee but will be asking those who can help with this to please do so.

The cafeteria will be open Sunday morning at 8:30 and someone will be there to accept the food throughout the morning.

Visiting in the home of Mr. and Mrs. C. L. Garrett Thanksgiving were their daughter and family, Mr. and Mrs. Robert Bell and Mike of Dallas, and Mr. Bell's parents, Mr. and Mrs. E. L. Bell of Wellington, Ohio.

dents wouldn't be able to eat because of the anticipation.

Well, the seniors had two big shocks last week, when their rings and class pictures came in. The senior class pictures had been expected for about two weeks when they finally arrived Tuesday afternoon. Though Mr. Newberry had planned to give the seniors their rings at 3:00 Wednesday, the excited seniors were able to convince the principal that unless they were given out at dinner, many of the stu-

Singing in a special program for the high school students Wednesday afternoon were the First Baptist Church Youth Choir members. The choir gave the program as part of the Thanksgiving Holiday activities. It seemed as though the students wouldn't leave the auditorium after the performance by the choir. After giving the choir a standing ovation, the students reluctantly returned to their fifth period classes. Immediately preceding the program by the choir the Rev. Max Brown of the First Baptist Church gave a short talk on what we should really be thankful for during the Thanksgiving holidays.

That fighting Piper spirit has carried right on over into basketball season this fall. The A string boys rolled right over Wylie and Knox City last week, and the girls beat Knox City in their first victory of the season. It seems as if the Pied Pipers are out for that District title again this basketball season.

Sincerely yours,

Dear Mr. Craig:

In the newspaper that you published on November 23, 1967, you devoted space to Omar Burleson in which he orated about socialism and our deliverance from this "sharing of the wealth." I know little about the subject of socialism and even less of politics, but I was wondering if we have indeed been delivered from the idea of "the taking away of property" for the common good of all. Is not the social security program that we are under today a form of socialism? Is not the Medicare program a sharing of the wealth? These are both programs that have been initiated into our society in modern times. Is this an indication of direction that the United States is taking today?

I am not handing down a decision on these matters. I was just wondering where it will end. I was just wondering at what point England stopped being a free enterprise nation and became the socialist state that it is today. I was just wondering where the turning point is between a partially socialist nation and a purely socialist nation such as the Union of the Soviet Socialist Republics. I was just wondering . . .

Neinda Philosopher Wants to Know Who Re-Possesses A Country When It Goes Bankrupt

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One broadens his field of worry, his letter this week reveals. Dear editor:

Recently I wrote you about a public opinion poll which went to great lengths to discover that most people say their number one problem is money, like it's always been and which I knew all along, but I forgot to add that I have taken a poll myself, mostly by wracking my brain, among the governments of the world and can report that money is their biggest problem too. You name me a single government, local, state or national, anywhere in the world, which isn't scraping the bottom of the barrel and looking out the cracks in the staves to find more money.

I didn't know how serious this was until I picked up a copy of a newspaper the other day and read that the British government had asked for a billion-dollar emergency loan from the International Monetary Fund to stave off bankruptcy. Came right out and said it was on the verge of ruin.

I don't know anything about the International Monetary Fund, if it makes emergency loans to individuals, please send me the address, I'd qualify, but what I got to thinking about is, what happens when a country goes bankrupt?

Who re-possesses it? What do they do with it?

I know what a bank does when it has to foreclose on a farm, but what can you do

with an entire country?

Futhermore, say England, despite its loan which for our part will have to be secured by a second lien or is it a third, still doesn't make it, goes broke, and its assets are put up for sale to pay off the creditors. Who's in the market for a busted country? The way countries are going nowadays, I can't think of many that could be called a sound financial investment.

I'll tell you, I don't think England is going under, but the mere idea of a country taking bankruptcy certainly gives a man something to speculate about.

I can see the advertisement

the creditors would run in the newspapers of the world, including The Herald in order to get complete coverage: "For Sale At Public Auction to the highest bidder, the British Isles entire contents to go, including the fixtures, such as Dukes, Earls, all sorts of Lords and other items too numerous to mention. Terms cash."

It's that last stipulation that's going to hamper the sale.

By the way, I believe if I was you, when they send that ad in I'd ask for payment in advance.

Yours faithfully,
J. A.

Great Plains Conservation Cut Of Funds Until July, Batte Says

The Great Plains Conservation Program is temporarily out of funds, according to a statement made this week by Gary A. Batte, head of the Stamford Soil Conservation Service office.

"Enough cost-sharing contracts have been signed by producers to obligate nearly all the GPCP funds which are expected to be allocated for the 1968 fiscal year," Batte said.

"As a result, producers in this area desiring to do conservation work through the Great Plains Program will probably have to wait until after July 1, 1968, to enter into a contract with the Government."

"Until then, Batte declared,

terested in the program are advised to go ahead and make applications at the local SCS office. SCS technicians will then assist in the preparation of a conservation plan on the farm or ranch. Such a plan could easily be converted to a Great Plains Contract later on when more funds become available.

AUSTIN — Everybody's talking about the 1968 governor's race. As of this writing, however, Lt. Gov. Preston Smith is the only one who has formally announced.

Secretary of State John L. Hill says he wants to run — and will, if support "continues to crystallize". Adds Hill: I know the political realities are such that if I am going to run, I ought to announce soon, but I don't want to speculate when."

Uvalde rancher-banker Dolph Briscoe says he definitely is interested but has reached no

firm decision.

Although he hasn't announced, former Atty. Gen. Waggoner Carr made a candidate-like move in demanding that U. S. Sen. Ralph Yarborough, another potential candidate, resign his office should he enter the governor's race.

Austin attorney and former Congressman Joe Kilgore, a close friend of Gov. John Connally, says it is unlikely he will be a candidate but he did not close the door.

Other names have been mentioned but no statements have come from them, pro or con, as to their interest in the race.

COURTS SPEAK — Millions of dollars may be added to the Texas Permanent School Fund pending outcome of suit by a San Patricio County man challenging private ownership

of 12,068 acres of South Texas oil lands, says attorney general's department. Walter C. Atchley, in lawsuit, claims that the state never deeded away land to oil operators and is still owner.

Third Court of Civil Appeals upheld award of \$117,456 to a six-year-old Austin boy whose leg was cut off by a power mower at a drive-in theater here.

State Supreme Court in a divided (five to four) decision held that a San Antonio detective investigator was dismissed on insufficient grounds, though he offered for sale a shot gun reported stolen.

High court rejected appeal of an Edinburg man for release from jail where he is held on order to pay \$17,000 of his Mexican national lottery winnings to a woman who had purchased a half interest in one of his "lucky" tickets.

Supreme Court concluded that a Travis County district judge should not have ordered a new trial of case protesting denial of a new savings and loan association charter in Llano.

Court of Criminal Appeals held that conviction of a man imprisoned for 28 years on forgery and other felony charges cannot stand because he did not have counsel in his 1939 trial.

SMITH APPOINTED — Lt. Gov. Smith announced these appointments:

Sens. Charles Herring of Austin and Tom Creighton of Mineral Wells to Multi-state Tax Compact Committee.

Sens. Grady Hazlewood of Amarillo, Criss Cole of Houston, James T. Moore of Bryan, Bruce Regan of Corpus Christi and Ralph Hall of Rockwall to joint Interim Highway Safety Committee.

Sens. Oscar Mauzy of Dallas, James S. Bates of Edinburg, Creighton, H. J. Blanchard of Lubbock and Murray Watson Jr. Waco to special Committee to Study Governmental Immunity with request to recommend whether principle should be continued or abolished.

Sens. William N. Patman of Ganado, Watson and Hazlewood to special Parking and Traffic Committee to study congestion in the state capitol area.

CITY SALES TAX SUCCESS CONTINUES — Five more Texas cities have given overwhelming approval to one per cent city sales tax levies.

Huntsville, Uvalde, Seguin Commerce and Llano voters asked for the tax by margins ranging from two-to-one to eight-to-one.

So far, 33 cities have approved the local revenue-raising method passed by the Legislature this year although it was believed to be highly controversial. Only two, Lufkin and Electra, have turned it down.

Next two elections — Dec. 2 — are in Galveston and Kilgore. Fifty-six cities will vote on Dec. 5, including Houston, Dallas, San Antonio and Fort Worth.

BOND PROGRAMS — Two state agencies are busily planning how best to take advantage of \$275,000,000 worth of authorization voted them by Texas citizens on Nov. 11.

One of the constitutional amendments revived the Veterans Land Program and authorized the issuance of \$200,000,000 in bonds to finance it. Another set up the Park Development Fund and provided for the sale of \$75,000,000 in bonds to finance it.

Veterans Land Board, administrator of the land program, should be ready to begin its operations soon after the votes are formally canvassed on November 28. No friction is anticipated in this for two reasons.

First, the old Veterans Land Program expired only in 1965, so Land Commissioner Jerry Sadler is experienced in operating it. Second, there are few complications to work out — the state merely sells the bonds and acquires the money, then asks for applications from veterans. Sadler said veterans should locate tracts they want, then apply for loans after Jan. 15.

But Parks and Wildlife Department is facing a different situation. Bond experts met with department officials last week to give them a "short course" on securities.

Neither agency is planning to sell all the authorized bonds at once. Land Office is talking about \$25,000,000 to \$30,000,000 in the first issue, and though the Parks and Wildlife Commission will have the final say-so, the most popular figure discussed at the meeting was \$10,000,000.

Land bonds will be 40-year bonds. Parks bonds are limited to 10 years, and will be retired by revenues from entrance fees to state parks. Both have 4½ per cent constitutional limit on the interest the state may pay, which could complicate their sale.

LIQUOR BOARD SUSPENDS AGENTS — Coke Stevenson Jr., administrator of Texas Liquor Control Board, suspended two Dallas agents for "remarks" about board operations, and ordered them to a Tuesday, November 28, hearing here.

Action followed distribution of a circular in the capitol area and in Dallas criticizing Stevenson and James E. Dale, Dallas LCB supervisor. Circular also repeated the Baptist General Convention demand for investigation of the Board. Stevenson called the publication "malicious slander."

Dallas State Sen. Oscar Mauzy said he is looking into LCB activities himself following rumors about alleged wrongdoings.
